

AAS SecurePlus

Your Reliable E-Commerce Logistics Partner

Integrated Screening & Logistic Solution

SPEED - RELIABILITY

- AAS operates the Regulated Air Cargo Screening Facility (RACSF) situated under the same roof of AAT
- AAS RACSF & AAT terminals are fully intergrated to enable one stop, seamless on-airport service
- TSA certified X-ray machines operated by cargo professionals & security experts under full CCTV security surveillance
- Direct airside access to enable the quickest handling of time-critical shipments
- Greater efficiency with reduced trucking time & costs

AAS SecurePlus

In order to accommodate the increasing cargo screening needs, logistics arm of AAT, Asia Airfreight Services (AAS), has tailored a one-stop, hassle free cargo screening and logistics solution named "SecurePlus".

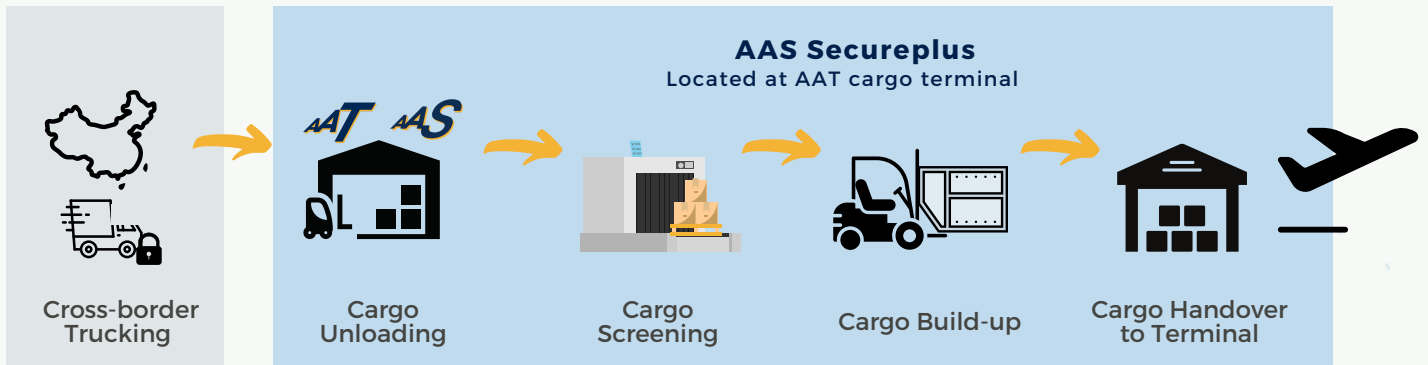

AAS is the only air logistics service provider that is a certified "Regulated Air Cargo Screening Facility (RACSF)" located within an air cargo terminal at AAT, a prime location with direct airside access to enable the quickest handling of shipments from acceptance to the aircraft.

"SecurePlus" is an integrated logistics solution which expedites the handling of direct and time-critical shipments from the mainland. The time of transportation for these shipments can be shortened to achieve greater time efficiency and cost savings, especially since the close proximity between AAS and AAT means that customers can save on secured trucking costs usually incurred between the off-airport warehouse facility and the cargo terminal.

INTERGRATED SCREENING & LOGISTIC SOLUTION

AAS arranges prioritized truck docks to seamlessly perform services such as cargo unloading, security screening, build-up, and tendering cargo to the terminal. This means that cargo can be accepted by AAT closest to the cut-off time.

KEY SERVICE SCOPE

- Cargo unloading
- Cargo handover to CTO
- Cargo screening
- Other value-added services
- Cargo build-up
- Other special project

TSA certified X-ray and Explosives Trace Detection (ETD) screening machines
