A Gesture of Friendship from Vietnam Airlines in the Fight Against COVID-19

According to a Chinese saying, a true friend is one who sends coal when it is snowing. Vietnam Airlines (VN) demonstrated this to many of their friends around the world when they operated cargo services carrying shipments of personal protective equipment to Hong Kong, Australia and Europe during the COVID-19 pandemic. AAT was very thankful when Mr. Ngo Tri Hung (General Manager Vietnam Airlines Hong Kong) and his team presented a gift of face masks during their recent visit to show support and encouragement for our staff as we work through this difficult period hand in hand.
