Another Milestone In Perishables Handling With IATA CEIV Fresh

Asia Airfreight Terminal (AAT) has been awarded IATA's Center of Excellence for Perishable Logistics (CEIV Fresh) certification in September 2021. This accreditation recognizes our strong expertise, stringent training and excellent facilities in handling perishable cargo in accordance with global standards. It enhances our service commitment and professionalism when handling temperature-sensitive shipments.

Mr. Kuah Boon Kiam, General Manager of AAT, receives the CEIV Fresh certification from Ms. Yvonne Ho, General Manager of IATA HK/Macau

There is increasing demand for the safe transportation of high-end perishables and pharmaceuticals by air. AAT is in the process of further enhancing our handling capabilities to capture these opportunities as part of Airport Authority Hong Kong's initiative to develop HKIA into the world's Perishables Hub. We are investing in new cold chain facilities that will tie in well with our certifications such as CEIV Fresh, CEIV Pharma and WHO GDP. These new facilities are specifically designed to ensure unbroken temperature control for cargo, from export acceptance to ramp release, and from the receipt of imports at the ramp to cargo delivery. These new facility upgrades will be ready to serve the industry by 2022.

Our General Manager, Mr. Kuah Boon Kiam says, "The past two years have obviously been challenging for all of us. Despite the ongoing pandemic, we are delighted to receive the CEIV Fresh certification from IATA which validates our strong capabilities for perishables handling at the highest service standards. We look forward with anticipation and excitement towards 2022 when we will unveil our new temperature-controlled facilities. The industry can expect some new features that will be a first for HKIA."

Ms. Yvonne Ho, General Manager of IATA HK/Macau, says "Perishable goods is a growing market for air cargo. Congratulations to AAT to achieve the IATA Center of Excellence for Independent Validators (CEIV) programs for handling Perishable cargo that demonstrates excellence in the handling of time and temperature sensitive fresh produce. CEIV Fresh certification provides stakeholders throughout the air cargo supply chain with the assurance that certified companies are operating to the highest quality and standards in the transportation of perishable products."

AAS Partners Cainiao With Integrated Logistics Solutions

Our logistics subsidiary, Asia Airfreight Services Ltd (AAS) is excited to partner with Cainiao to serve their outbound Lazada e-commerce shipments to South-east Asia with our "SecurePlus" integrated logistics product. E-commerce has revolutionized the logistics business with significant increase in cross border e-commerce shipments moving from mainland China to Hong Kong.

Cainiao is at the forefront of this development and has pioneered many of the e-commerce logistics processes. AAS "SecurePlus" is a good fit for Cainiao in terms of the services offered and also in meeting the time requirements that are crucial for e-commerce shipments.

Under the new ICAO directive to strengthen global aviation security, 100% air cargo screening is now mandatory in Hong Kong. AAS "SecurePlus" provides a one-stop, hassle free cargo screening and logistics solution which expedites the handling of time-critical e-commerce shipments from mainland China.

AAS is the only air logistics service provider certified as "Regulated Air Cargo Screening Facility (RACSF)" located on-airport within the AAT terminal, a prime location with airside access to enable the quickest handling of shipments from acceptance to the aircraft. Prioritized truck docks can be arranged to seamlessly perform services including cargo unloading, security screening and build-up. The location allows for short acceptance cut-off time and reduced costs because secured trucking is not needed for AAS to transfer cargo to AAT.

AAT and AAS is the only combined service provider who can provide both on and off airport security screening within the airport premises.

亞洲空運中心旗下的物流增值服務全資公司——亞洲空運服務有限公司 (AAS) 很榮幸與菜鳥網絡攜手合作，為菜鳥提供一站式綜合貨物安檢及物流方案「SecurePlus」，協助菜鳥把Lazada的跨境貨物運送至東南亞各地。

隨著中港跨境電商貨物的顯著增長，電子商貿為物流業帶來革命性的改變。菜鳥為電商物流業的先驅，開創了多項電商物流方案，亞洲空運服務有限公司的「SecurePlus」服務正好為菜鳥提供最適切的服務方案，以配合其快速發展之電商物流需求。

在國際民航組織的新政策下，所有香港出口的空運貨物必須進行安檢，以加強全球航空安全。AAS「SecurePlus」服務能提供一站式綜合安檢及物流方案，能有效地處理從中國內地運抵香港的跨境電商貨物。

亞洲空運服務有限公司獲得「管制空運貨物安檢設施 (RACSF)」資格，位於亞洲空運中心貨站，位置優越，與停機坪對接，有效加快貨物運送至停機坪的時間。透過預先安排貨台以便進行卸貨、安檢、裝板等一條龍服務，以確保貨物能於最接近貨站收貨時限前交到亞洲空運中心貨站，並減省保安運輸成本。

亞洲空運中心與亞洲空運服務有限公司的綜合服務方案，在機場區提供全面的空運貨物安檢服務。

Nothing Too BIG For AAT To Handle

AAT has successfully handled a special oversized shipment of industrial oil pipes for our valued partner, Turkish Cargo. Each pipe was 38 feet in length and was forwarded in a series of B747 freighters to Istanbul. We worked closely with Turkish Cargo, regulatory authorities and the ramp handler, SATS HK, to arrange parking bays close to AAT's staging area, to facilitate the entire handling process with customized build-up. It just shows that if you can fit the cargo into an aircraft, we can handle it for you!

Turkish Airlines' Cargo Director of North Eastern Asia, Mr. Onur Uzar says, "With a flight network of 97 direct cargo destinations, plus express carriers, Turkish Cargo is offering service to 127 countries and is the fastest-growing air cargo brand around the world. Within this framework, we are grateful for the great support from Asia Airfreight Terminal throughout the years. AAT has been a long-lasting partner on the operation side to satisfy our ever-increasing demand for handling services and we are looking forward for an enduring partnership."

亞洲空運中心成功為我們的長期合作夥伴土耳其航空公司處理龐大的工業油管貨物。每條油管長達三十八英尺，我們與土耳其航空公司、機場管理局及地勤服務商新翔香港緊密合作和配合，為龐大貨物安排定制式裝板，並安排貨機停泊在最接近AAT貨站的停機坪位置，以便進行貨物裝載，透過波音B747貨機航班，成功把貨物送抵土耳其伊斯坦布爾。我們盡心協力以確保整個貨物處理流程暢順運作，足證AAT在處理龐大貨物之專業服務及能力，只要機艙能裝載，我們都能夠為客戶辦妥！

土耳其航空公司貨運董事（亞洲區-東北部地區）Onur Uzar先生表示：「土耳其航空公司建立及連接97個貨運航點，再加上其他快速航空，為127個國家提供服務，是全球發展迅速的航空公司。我們感謝AAT過去多年來的支持，配合我們迅速增長的市場需要，是我們的長期合作夥伴。」

Doing Our Part For The Environment

AAT is committed to create a more environmentally sustainable airfreight terminal and we have consequently implemented various green initiatives since 2008. In 2020, we achieved a reduction of 50% in annual carbon emissions from the 2008 baseline which marks a significant milestone for our "Go Green" initiative.

The airport community and the environmental campaign committee, including Airport Authority Hong Kong (AAHK) and Hong Kong Green Organization Certification (HKGOC), have recognized our environmental achievements by awarding us the "Good Class" certificate in the Innovation Award from AAHK's Carbon Reduction Award Scheme. This award recognizes our adoption of new carbon practices and technologies. One of our innovative ideas was to apply water mist pre-cooling technology to improve the performance of the air-cooled chiller system.

AAT has also received the "Energywise Certification (Excellent Level)" from HKGOC for seven years in a row. This award recognizes our long-term commitment to green projects and efforts in environmental protection through energy conservation.

As the environmental crisis worsens, we aim to look for more ways to contribute to a greener future for HKIA and Hong Kong.

亞洲空運中心自二零零八年起推出多項環保措施，致力創建環保和可持續發展的空運貨站。在二零二零年，我們的年度碳排放量已較二零零八年大幅減少達50%，為我們推動環保寫下重要里程碑。

我們於香港國際機場及香港綠色機構認證合辦的「香港國際機場減碳獎勵計劃」中奪得創新獎(良好級別)，表揚AAT運用創新減碳技術，其中一項得獎措施是採用水霧預冷技術，改善風冷式製冷系統的效率。

同時，我們非常高興連續七年榮獲由香港綠色機構認證頒發的節能證書(卓越級別)，肯定我們多年來在環保節能的貢獻及承諾。

面對全球環境問題持續惡化，我們正積極採取更多環保措施，致力為香港及香港國際機場的綠色未來出一分力。

Working Smart With The New AAT Staff App

The unprecedented COVID-19 pandemic has changed the way we work completely. As part of efforts to connect with our staff via safer and more efficient electronic means, AAT has launched a new AAT Staff App in August. This communications innovation enables our staff to receive company information instantly on their mobile devices wherever they are. The Staff App was designed to be very user friendly and interactive. It will also save our printing hard copy circulars.

Our staff can acknowledge receipt of company notices by a simple click. They can now enjoy much greater convenience via this digital platform when receiving the company's latest news. This is especially important for staff who may not work normal office hours.

前所未有的2019新型冠狀病毒疫情徹底改變了我們的工作模式。為了讓員工能更安全及有效地透過電子通訊保持聯繫，亞洲空運中心於八月全新推出「AAT員工流動應用程式」，其簡易而互動的介面讓員工可隨時隨地透過手機接收公司資訊，並減少列印傳統紙本通告。

此外，我們的員工只須簡單一按即可確認收妥公司的資訊。員工現時可更簡便地通過該AAT員工電子平台接收公司的最新信息，對需輪班工作的員工尤其重要。

Celebrating The Beauty Of Our Home On Our 23rd Birthday

To celebrate AAT's 23rd anniversary, we organized a photo competition with the theme of "Lantau in your Lens". Lantau is where we call home and our staff were invited to share their remarkable moments on Lantau Island with snapshots. A 2022 desk calendar with the winning photos will be produced for distribution to all our staff. AAT takes this opportunity to thank all our staff, customers and business partners for their strong support and collaboration over the last 23 years. Many Happy Returns, AAT!

香港大嶼山稱得上是香港國際機場員工的第二個家。為慶祝亞洲空運中心成立廿三週年，我們今年舉辦了名為「光影下的大嶼山」攝影比賽，誠邀員工以他們的「鏡頭」分享他們於大嶼山的難忘回憶。勝出作品將會製成二零二二年座檯月曆，分發給所有員工以作紀念。我們並藉此感謝員工、客戶及業務夥伴在過去二十三年的支持和合作，期待我們一起締造更多快樂的回憶！
